Harbor Logistics - Operations SOPs

Returns, purchase approvals, opening and closing, system outages

SOP 1 - Customer returns

Standard items may be returned within 30 days of delivery for a full refund. Special-order items carry a 15% restocking fee. Items damaged in transit must be reported within 48 hours of delivery with photos.

Refunds are issued to the original payment method within 5 business days of the item reaching the warehouse.

SOP 2 - Purchase approvals

Purchase amount	Approved by
Up to $500	Team lead
$500.01 to $5,000	Department head
$5,000.01 to $25,000	Operations director
Over $25,000	Chief financial officer, with two quotes

SOP 3 - Opening and closing the warehouse

The first person in disarms the alarm with their own code, turns on the dock lights and checks the overnight delivery log. The warehouse opens to drivers at 7:00 a.m.

At closing, the shift lead checks that every dock door is down and locked, the forklifts are on their chargers, and the alarm is set. The last person out signs the closing sheet by the main door.

SOP 4 - If the order system is down

Take orders on the paper order form kept at the front desk, give each a number from the paper log, and enter them into the system within 2 hours of it coming back. Tell customers their confirmation email may be delayed.
